Basix™ – Reliable performance for any application.

Basix™ is constructed from a strong steel alloy to endure the rigors of a daily routine while providing a safe, ergonomic and flexible work area for the user. The Basix line of carts is available in four styles: Basix, Basix Compact, Basix Plus and Basix Plus Compact. Basix Plus and Basix Plus Compact are covered under separate specification sheets due to the many enhancements over the standard line.

- **Safe** - The polymer base protects the cart and surrounding environment from incidental contact. The base is designed to allow the 5" (127mm) casters to be mounted outboard of the cabinet, which keeps the cart stable when a fully loaded drawer is accessed.
- **Ergonomic** - Polymer top provides a user-friendly work surface. Optional accessory push handles can be mounted in an ergonomic fashion to allow for easy pushing or pulling of the cart.
- **Flexible** - User defined configurations can be accommodated by filling an empty cart shell with desired 3", 6", 9" and 12" (76, 152, 229, 305 mm) drawer heights.
- **Accessible** – Full-extension drawers and a full array of accessories put equipment and supplies where needed for convenient access. Optional drawer dividers keep supplies neat and organized.
- **Mobile** - This cabinet comes with 5" (127mm) diameter casters (2 with swivel brakes, 2 with swivel-lock) allowing it to be rolled easily from location to location or moved for convenience when cleaning.
- **Accessories** - A full array of task support accessories are available for above the work surface or the side of the cart.
